Dental Care that Horses Drink™

## Did You Know:

- Horses of all ages commonly suffer from dental disease.
- Poor dental health affects your horse's performance.
- Dental disease can be painful for your horse like it is for you.
- Dental maintenance and daily dental care can make a real difference in the overall health of your horse adding years to his life.

## healthymOUTH :: healthyHORSE™

100% natural, patented healthymouth™ drinking water additive; a highly palatable blend of enzymes, anti-oxidants and antibacterials is clinically proven to reduce oral bacteria and inflammation without chemical agents.

- healthymouth™, proven effective in two independent clinical trials under supervision of equine veterinarians Toots Banner, DVM, and Richard Miller, DVM, reducing oral bacteria, inflammation, and lacerations/ulcerations on cheeks and tongue.
- healthymouth™, acts as an all natural treatment aid in the maintenance of cleaner teeth and gums at every life stage.
- healthymouth™, developed to be part of a comprehensive dental care program in conjunction with equilibration and other equine veterinary dental procedures.

## Stable Care Benefits:

- free your partner from years of pain—don't let your horse suffer in silence!
- improve your horses performance, appetite and quality of life.
- daily long term use provides continuous improvement in mouth & overall health.
- safe, digestive friendly and contains no chemical agents.
- healthymouth™ keeps water troughs clean, so you don't have to!

Please ask your equine dental specialist or visit [www.healthymouth.com](http://www.healthymouth.com) for more information about this critical part of your horse's health care.

**100% PALATABILITY GUARANTEED:** If your horse is not completely satisfied with the palatability of healthymouth™, Healthymouth LLC will unconditionally refund your payment.

## Norman, a healthymouth Success Story:

For years my Norman was thin, depressed, drooling, lips flapped, dull coat and dull eyes. I then started him on healthymouth equine. Today he is happy, shiny coat, bright eyes, no drooling at all and has put on 50lbs. His gums are no longer bleeding, the swelling is down and the purple discoloration almost gone. He is a totally different horse! I'm so impressed with the product—I've never seen that kind of change with any product I've used before. —Sharon T.

Dental care in horses has changed significantly in the last 15 years. Healthymouth is the first product of it's kind that is simple to use, safe, and effective. In addition to dental equilibration, Healthymouth takes equine oral health care to a new level. —Toots A. Banner DVM,
